

Recording and Utilization of Cultural Property Information via Digital Technologies Vol. 2

Open Science, Data Preservation, Intellectual Property, GIS

Table of Contents

I. Opening and Linking Cultural Heritage Data

- [1] Archaeological Science and Current Trends in Research Publication, Data Management, and Methods Transparency and Reproducibility 1
Ben Marwick (University of Washington)
- [2] Archaeological Big Data: Potential and Challenges 14
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [3] Data Visualization in Archaeology Using R 16
Ishii Junpei (Assabu)
- [4] Researchers and Open Science 27
Nakamura Yuriko (Rikkyo University)
- [5] Transnational Knowledge Network for Japanese Studies: Who Uses the Databases? 32
Egami Toshinori (International Research Center for Japanese Studies)
- [6] How Not to Fail at Translating Texts on Cultural Heritage 37
Peter Yanase (Nara National Research Institute for Cultural Properties)

II. Preserving and Utilizing Cultural Heritage Data

- [7] Regarding the Handling of Digitized Visual Data 41
(Cultural Properties Second Division, Agency for Cultural Affairs-Japan)
- [8] Digitizing Photographic Films at the Nara National Research Institute for Cultural Properties 47
Nakamura Ichiro (Nara National Research Institute for Cultural Properties)
- [9] Long-term Storage of Digitized Heritage Data 49
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [10] The Appropriate Choice of Storage Media for Long-term Digital Archiving 55
Takase Fuminori (Sony Storage Media Solutions Corp.)
- [11] The Potential of 3D Data in Archaeology: Utilization and Issues 59
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)
- [12] File Formats for the Long-term Digital Storage of Cultural Heritage Data 71
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [13] Using Digital Technology: From Excavation to Site Report 77
Mitobe Hideki (Yamagata Prefectural Center for Archaeological Research)
- [14] Site Report Data and Web Contents 95
Horiki Mamiko (Aichi Prefectural Center for Archeological Operations)

III. Cultural Heritage Data as Intellectual Property

- [15] Reproducing Materials for Preservation Purposes Under the Japanese Copyright Law: The Digitization of Films and Videotapes 101
Sudo Masahiko (Gojo Partners)

[16] The Rights Clearance Procedure for Films	105
Yanai Kazumasa (TOHO CO., LTD.)	
[17] The Management of 3 Dimensional Copyrights Data That Are Open to the Public	111
Nakabayashi Atsushi (Cultural Property division, Higashiosaka boards of education)	
[18] Turning Cultural Assets Into True Public Goods	118
Fukushima Yukihiro (The University of Tokyo, Graduate School of Interdisciplinary Information Studies)	

IV. Cultural Heritage Data and GIS

[19] GIS and Cultural Resource Management	122
Yamaguchi Hiroshi (Nara National Research Institute for Cultural Properties)	
[20] The Utilization of GSI Maps	130
Miyamoto Ayumu (Kinki Regional Survey Dept., Geospatial Information Authority of Japan)	
[21] GIS in Cultural Heritage Management: A Guide to Using QGIS	138
Ishii Junpei (Assabu)	
[22] Using GIS in the Investigation of Cultural Heritage	195
Nagae Hirokazu (Hyogo prefectural education board)	

V. Publishing Archaeological Site Reports on the Web

[23] How to Publish Excavation Reports on the Internet	202
Miyazaki Takashi (Kumamoto Prefectural Board of Education)	
[24] The Current State of Site Summaries	206
Takata Yuichi (Nara National Research Institute for Cultural Properties)	
[25] Excavation Reports and the Disclosure of Archaeological Data: The Flow, Reproducibility and Reusability of Information Under the Policy of “Preservation in Records”	211
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)	
[26] The Progress of the Comprehensive Database of Archaeological Site Reports in Japan	218
Takata Yuichi (Nara National Research Institute for Cultural Properties)
