

Recording and Utilization of Cultural Property Information via Digital Technologies Vol. 4

Open Science, Wikipedia, GIGA School Program, 3D Data, GIS

Table of Contents

I. Archaeological Information in the Age of Open Science

- [1] Making Archaeological Information Accessible 1
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)
- [2] When? Where? What? SORAN as an Archaeological Information Aggregator 14
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [3] Social Networking and Cultural Heritage Information: A Case Study of Aichi Maibun 18
Higami Noboru, Horiki Mamiko (Aichi Prefectural Center for Archeological Operations)
- [4] Universities and the Creation and Utilization of Archaeological 3D Data 22
Nakamura Kosaku (Kokugakuin Tochigi Junior College)
- [5] Developing Local Heritage Information with Help from Outside: A Case Study of Hida 29
Miyoshi Seicho (Hida City Board of Education)
- [6] Digitalizing Museums: Publicization and Value Co-Creation 41
Nakao Tomoyuki (Agency for Cultural Affairs, Government of Japan)
- [7] No Photography! Social Networking Services and Cultural Heritage News 47
Imai Kunihiro (Asahi Shimbun Fukuoka News Center)

II. Cultural Heritage and Wikipedia

- [8] From Wikipedia Town to Wikipedia Cultural Properties 51
Aoki Kazuto (Institute of Disaster Mitigation for Urban Cultural Heritage, Ritsumeikan University, Code for Yamashiro)
- [9] How to Utilize Digital Information in *Wikipedia* 57
Arai Shohei (Tokyo University of Pharmacy and Life Sciences)
- [10] How to Search for Cultural Heritage Information on the Internet 63
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [11] Wikipedia Town in Numazu City 71
Kimura Satoshi (Numazu City Board of Education), Ichikawa Hiroyuki (Code for Fujinokuni/Tokyo Zokei University), Ichikawa Nozomi (Code for Fujinokuni)
- [12] Cultural Heritage and Wikipedia: Framework and Application 77
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)
Miyoshi Seicho (Hida City Board of Education), Oya Yuji (Matsubara City Board of Education)

III. Cultural Heritage and GIS

- [13] Digitizing Archaeological Site Maps: From an Administrative Perspective 89
Fujii Koji (Cultural Properties Second Division, Agency for Cultural Affairs)
- [14] Utilizing GSI Maps and GSI Tiles 93
Shimizu Otohiko (Kinki Regional Survey Dept., Geospatial Information Authority of Japan)
- [15] SORAN GIS: Functions and Data 101
Takata Yuichi (Nara National Research Institute for Cultural Properties)
- [16] Standardization, File Format, and Publishing of Archaeological GIS Data 105
Noguchi Atsushi (Nara National Research Institute for Cultural Properties)

[17] Examples of Open Data and the Introduction of Open Source GIS Software Into Administration	113
Kita Koichi (Hokkaido)	
[18] The GIS of Fukuoka City and Its Utilization	119
Morimoto Mikihiko (Buried Cultural Properties Section, Fukuoka City Government)	
[19] Digitizing Archaeological Survey Records with QGIS	123
Ishii Junpei (Assabu Agricultural Committee Office)	
IV. Local Cultural Heritage and the GIGA School Project	
[20] Excavation Sites and the GIGA School Project: What Kind of Change Will Learner-Centered use of ICT Bring to Buried Cultural Properties?	141
Sasaki Hironobu (Kohoku Junior High School, Nagano City)	
[21] School Libraries, the GIGA School Project, and Local Cultural Heritage	156
Miyazawa Yuko (Takamori Kita Elementary School)	
[22] Utilizing GIS for Elementary and Junior High School Student in Yokkaichi	164
Kawasaki Shino (Yokkaichi Board of Education)	
V. Open Data and Digital Archives	
[23] The Promotion of Administrative Open Data and Its Expansion Into the Field of Cultural Properties	167
Endo Mamoru (Nagoya University)	
[24] Publishing the Field Notes of Independent Scholars From the Modern Era Under CC BY	171
Chiba Tsuyoshi (Kanagawa Prefectural Museum of Cultural History)	
[25] The Creation and Significance of Guides to Good Practice	179
Takata Yuichi (Nara National Research Institute for Cultural Properties)	
VI. Cultural Heritage and 3D Data	
[26] The Publication of 3D Models and Matterport as Digital Archive	181
Hayashi Masaki (Tondabayashi City Board of Education)	
[27] 3D Measurement of Burial Mounds Made by Citizens	187
Iwamura Kohei (Community-Reactivating Cooperator Squad in Bizen City)	
[28] Investigating Quarries with Digital Devices	190
Takata Yuichi (Nara National Research Institute for Cultural Properties)	
VII. Videos of Cultural Heritage	
[29] Cultural Heritage Videos at the Nara Palace Site Museum	196
Fujita Yukari (Nara National Research Institute for Cultural Properties)	
VIII. Online Publication of Reports Related to Cultural Heritage	
[30] Registering the Data of Nakatsu City in SORAN: Why and How?	199
Urai Naoyuki (Nakatsu Board of Education, Social Education Division, Museum of History)	
[31] Digitizing and Publishing Archaeological Excavation Reports in Akita City	202
Kanda Kazuhiko (Akita City, Culture Promotion Section)	
[32] The Comprehensive Database of Archaeological Site Reports in Numbers, 2021	205
Takata Yuichi (Nara National Research Institute for Cultural Properties)
